

Advancing Quality Across Medicaid and Medicare Programs

Alliant Health Solutions partners with state Medicaid and federal Medicare programs to transform policy priorities into measurable performance improvement.

We help agencies improve clinical outcomes, provider and plan performance and program accountability across fee-for-service, managed care and value based purchasing environments.

WHAT GOVERNMENT AGENCIES GAIN

Improved performance on priority quality measures (HEDIS, CMS Core Sets and state-defined metrics)

Measurable impact aligned with federal and state quality goals

Stronger provider engagement and accountability

Support for value-based purchasing (VBP) programs and quality incentive models

Sustainable system-wide improvement, not one-time interventions

OUR APPROACH: SCIENCE + EXECUTION = RESULTS

Alliant combines implementation science, quality improvement facilitation, and behavioral science with deep program expertise to drive measurable, lasting improvement across healthcare systems.

Evidence-based strategies and implementation science drive better outcomes.

Expert facilitation, provider engagement, and data-driven decision support turn strategy into action.

Measurable, sustainable improvement that delivers program value.

Strengthening Value-based Purchasing and Program Accountability

Alliant helps agencies align quality improvement with payment and oversight structures by:

- ✓ Improving performance on quality, cost and utilization measures
- ✓ Supporting provider readiness for risk-based and performance-based models
- ✓ Aligning improvement strategies with payment incentives and contractual requirements
- ✓ Driving measurable results tied to return on investment, cost avoidance and program savings

DEMONSTRATED PROGRAM IMPACT

Improved clinical quality outcomes across targeted populations

Increased provider performance on priority measures

Reduced variation in care delivery

Enhanced member experience and engagement

We focus on results that matter to agencies:
better outcomes, stronger oversight, and improved value.

WHY GOVERNMENT AGENCIES CHOOSE ALLIANT

Deep experience supporting Medicaid, Medicare, and dual-eligible populations

Proven ability to operate across FFS and managed care delivery models

Trusted partner in quality improvement and performance optimization

PROGRAM APPROACH

CHALLENGE

Inconsistent quality performance and limited visibility across Medicaid programs.

SOLUTION

Integrated quality improvement support combining data, technical assistance, and provider engagement.

IMPACT

- Improved quality outcomes
- Stronger provider performance
- Enhanced program accountability
